REDA BARLES IN; RED'SS ON THE POLES ON 400-MILE FRONT

Long Planned Spring Of-
fensive Starts—Little Suc-
cess So Far Scored.

By the Associated Press.

WARSAW, March 24.—Bolshevik at-
tacks have been launched against the
Polish line at scattered points along a
front of approximately 400 miles, and
the long planned spring attack by the
Russian soviet armies apparently has
been commenced.

While the bolsheviks have made
small advances at some places, de-
spite the desperate resistance of the
Poles, the latter have been holding the
enemy in check in most sections, say
official statements.

The reds have been compelled to re-
treat from several newly acquired
positions along the front, but fighting
still continues, the soviet troops using
heavy artillery, tanks, armored cars
and other apparatus captured from
Gen. Denikin on the south Russian
front.

Most Severe Fighting.

Most severe fighting took place on
Tuesday on the Polesian-Podolia front
near the Galician frontier, the bolshe-
viks concentrating their attacks on
this sector in an effort to capture
Rovno, an important railroad center,
and Kamenetz-Podolsk, a city highly
prized because of its strategic im-
portance. Further north in the region
of Rzeszyca and Kalenowitz, north-
east of Minsk, the enemy took several
small villages which were recovered
by the Poles after a day's fighting.

Heavy engagements also were reported
in the vicinity of Zaslav, southeast of
Rovno and Staro-Konstantinov, where
the reds attempted to cross the Slutsk
river. East of Kamenetz-Podolsk the
battle is still going on, both sides using
artillery and bringing up reinforcements.
Some crack bolshevik divisions are in
line along this sector and cavalry is be-
ing used.

Rovno is particularly valuable to the
Poles, as through it runs the only rail-
road by which supplies can be shipped to
the army along the southeastern
front. In their drive against this city
on Tuesday the bolsheviks hurled two
divisions into the battle in an attempt
to outflank the Poles.

Hand-to-Hand Fighting.

Hand-to-hand fighting ensued in vil-
lages just to the east of the Slutsk river
and the enemy was finally compelled to
retire. He resumed the onslaught, how-
ever, and the struggle is still going on
in the vicinity of Bubary and Ostropol,
where, in spite of their use of heavy ar-
tillery in preparation for their assault,
the reds have not succeeded in crossing
the Slutsk.

In sectors where the Poles have re-
pelled the soviet hordes they have found
great heaps of bridge building materials
which were brought in preparation
for crossing several streams that flow
along the front.

Northeast and east of Kamenetz-Po-
dolsk, near the Dniester river, the bolshe-
viks have been using their heaviest
guns and apparently have made slight
gains, having captured the village of
Mohilev (not the important city of the
same name) several days ago.

MR. HOOVER WOULD END CONFLICTS OF CLASSES

Believes Industrial Report Offers
Way to Prevent Domination of
the Few Over the Many.

BOSTON, March 25 (By the Associated
Press).—The relationship of employer
and employee, as considered by the na-
tional industrial conference, of which
he was a member, and the difference in
the point of view of the conference and
that of the Kansas legislation for the
judicial settlement of labor disputes
were discussed by Herbert C. Hoover in
an address before the chamber of com-
merce here yesterday.

Purpose of Conference.

"The conference," he said, "has en-
deavored to find a plan for systematic
organization of the forces that are mak-
ing for better relationships, to encourage
the growing acceptance of collective bar-
gaining in providing a method that
should enable it to meet the objections
of its critics, and to aggregate the
forces of conciliation and arbitra-
tion now in such wide use. It has
sought to do this without legal ar-
rangement, but with the organized pres-
sure of public opinion.

"To me there is no question that
we should try the experiment of the
perhaps longer road proposed by the de-
velopment of mutual relations of relation-
ship between employer and employee rather
than to enter upon summary action
of court decision that may both stifle
the delicate adjustment of industrial
processes and cause serious conflict
over human rights. To me the up-
building of the sense of responsibility
and of intelligence in each individual
unit in the United States, with the
intervention of government only to
promote the development of these re-
lations, the suppression of domina-
tion by any one group over another, is
the basis upon which democracy must
progress.

Prevention of Domination.

"I do not believe we can attain
equality of opportunity or maintain
initiative through crystallization of
economic classes, or through arranged
against each other, exerting their in-
terest by economic and political con-
flicts, nor can we attain it by inter-
ferring to governmental bureaucracies
the distribution of material and in-
tellectual products. I do believe that
we can attain it by systematic pre-
vention of domination of the few over
the many and stimulation of individ-
ual effort in the whole mass."

**Generous Check Added
to Smith College Fund**

Rev. Roland Cotton Smith's Don-
ation Accompanied by Brief Note.
Other Contributions.

That happy combination of a brief
note and a generous check has been
sent by Rev. Dr. Roland Cotton
Smith, rector of St. John's Episcopal
Church, Lafayette square, to swell
Washington's quota in the four-mil-
lion-dollar endowment fund being
raised for Smith College, Northamp-
ton, Mass.

One of the first lists appealed to
here was that containing the names
of all "Smiths" in the District, and
contributions to aid their "insti-
tutional namesake" continue to come
in to Mrs. R. K. Munroe, 2823 Mas-
achusetts avenue, in charge of that
particular angle of the local drive.

Dr. Smith's gift is particularly ap-
propriate because of the close re-
lations between himself and the college.
From 1895 on, for a number of years,
he was rector of an Episcopal church
at Northampton just on the edge of
the campus and half of his Sunday
congregations were composed of col-
lege girls.

Washington's Smiths have done
well, says Mrs. Munroe. Recently a
dollar bill came from an anonymous
donor, who signed himself "A Poor
Smith." Luther Fuller, 1615 Florida
avenue northwest, who, though not
himself a Smith, claims he possesses
a numerous ancestry of that dis-
tinguished name, sent \$5 in memory
of his mother, who was a Smith and
a direct descendant of Elder Brewster
of Mayflower fame. Mrs. Isabelle
Geddes Smith, prominent in commu-
nity center work here during the war,
accompanied her contribution with a
clever poem dealing with her ac-
quisition of the name now borne
both by herself and the college.

STUDENT "SOVIET" IMAGINARY, ATTORNEY'S INQUIRY REVEALS

HAYS, Kan., March 25.—The student
"soviet" of the Fort Hays Normal
School has ceased to exist. In fact, it
never did exist, according to the county
prosecutor, except in the mind of one of
the faculty members, who was made a
victim of youthful exuberance, and who,
with two others, was ducked in a pond.
This faculty member, P. Casper
Harvey, so the county attorney today
reported to the state's attorney today,
resented an implication of coercion
in an "ultimatum" delivered by the
student body to the effect that every
one connected with the institution
would have to help lay the school
running track yesterday or take a
ducking.

Whereupon, so the investigation
disclosed, Prof. Harvey and Prof.
James Start, with a student named
Jandiguel, objected to this seeming
interference with personal liberty and
refused to take any part in the work.
In consequence whereof, there were
three splashes in the pond nearby,
and Prof. Harvey, upon emerging
from the water, immediately hastened
to the telephone office and informed
the state board of education that the
students had seized control of the in-
stitution and that a virtual "soviet"
was in power.

And that, said the county attorney
in his report, was all there was to it.
The track was built, the non-workers
were ducked and the incident was
closed—officially.
